# BellCount C2410

2025-04-14

## Features

- Accurate and reliable one-pocket automatic banknote counter.
- Full touch screen operation but also includes traditional keys. Very easy to operate.
- Handles up to 40 different currencies. Also includes a non-currency specific counting mode.
- Semi-value counting; input the notes' denominations and C2410 will show the amount counted.
- The whole top can be opened for easy cleaning and maintenance.
- Integrated carrying handle for easy transport.
- Detects UV and magnetic document security features and properties.
- Rejects detected suspect banknotes. The machine stops automatically and the suspect note will not be counted.
- Features a detection-free count mode for handling various notes, coupons, vouchers, etc.
- Includes Batch counting (1 - 200 pieces) and Add function.
- Easy updateable by USB memory stick or by computer.
- External display can be connected (optional).
- Counts up to 1.500 notes per minute.

Pull the handle to open the top. Easy access for cleaning and maintenance.

## Advantages

BellCount C2410 is the answer to most basic banknote counting needs.

The BellCount C2410 is very easy to use due to intuitive, simple, user-friendly touch screen operation and traditional keys.

Includes a semi-value counting mode. Input the denomination of the notes to be counted and you will get the total amount and a detailed report.

Efficient and tolerant note feeding and a very pleasant noise level.

## Warranty

12 months against all defects in material and labour.

## Benefits

BellCount C2410 requires a minimum of operator training. This saves banks and shop owners valuable time and money. The robust build quality ensures many years of flawless operation.

BellCount C2410 is very flexible and useful for both the financial and retail sector.

C2410 offers unprecedented performance, quality and reliability at a very attractive price level.

## Approvals

RoHS compliant and CE marked.

Integrated carrying handle.
